BANKING AND FINANCIAL.

BANKING-OFFICE OF FISK & HATCH, No. 5 Nassau-st., New-York, March 5, 1873. he Chesapeake and Ohio, the Central Pacific, I WESTERN PACIFIC BONDS, all of which have been rotiated by us, we believe to be among the best and st desirable Investment Securities in the market, ich in time must become very scarce; especially the Government will probably pay off, in gold, ring the year, \$300,000,000 Five-Twenties, and a ge amount of capital thus released from investnt must be absorbed into this class of securities. The Chesapeake and Ohio Six Per Cent Gold

NDS, the total amount of which is only \$15,000,000, secured upon a property worth \$35,000,000 to 0,000,000, and are fully equal in intrinsic value to Central Pacific Bonds. They are issued in deminations of \$100, \$500, and \$1,000 coupon or regised, and at their present market price, 871 and aced interest, are very desirable.

The CENTRAL PACIFIC SIX PER CENT GOLD BONDS too well known to require description or commendation. Their total amount is \$25,885,000; they have for a long time ranged in market price near or above par. Their price to-day is 104@1044.

The WESTERN PACIFIC SIX PER CENT GOLD Boxps amount to \$2,735,000. This road is now consolidated with the CENTRAL PACIFIC, and the payment of its bonds, principal and interest, is assumed by the latter. As they have recently been introduced on the Stock Exchange, we expect to see them rapidly rise to the price of CENTRAL PACIFICS, being nge, Nos. 50 and 52 Pine-st.

ey has been rather less stringent than of late, Coupon Bonds, \$1,000 each. Their market price to-

h during the forenoon the rate on call was 1-16 | day is 942 to 95. We buy and sell as usual Government Bonds, receive deposits, on which we allow interest, make collections, and conduct a general banking business ency, gold. There is as yet no revival of busi- in all its branches.

To Investors. To those who wish to REINVEST Courons on DIVIDENDS, and those who wish to INCREASE THEIR INCOME from means already invested in other less profitable securities, we recommend the Seven-Thirty Gold Bonds of the Northern Pacific Railroad Company as well secured and unusually productive.

The bonds are always convertible at Ten per cent premium (1.10) into the Company's Lands at Market Prices. The Rate of Interest (seven and three-tenths per cent gold) is equal now to about 81 currencyyielding an income more than one-third greater than U. S. 5-20s. Gold Checks for the semi-annual interest on the Registered Bonds are mailed to the Post-Office address of the owner. All marketable stocks and bonds are received in exchange for Northern z, and in some cases there was an advance of a Pacifics ON MOST FAVORABLE TERMS.

TO INVESTORS.

WE offer for sale the limited amount remaining unsold of the First Mortgage 8 Per Cent Bonds of the Atlanta and Richmond Air Line Rallway Company, and confidently recommend them as a secure investment. Price for the present 88 and accrued interest. Further information furnished on application.

LANCASTER, BROWN & Co., No. 1 Exchange-court.

THE NEGOTIATION OF TEN MILLION DOLLARS OF the Seven Per Cent Gold Bonds of the Houston and Texas Central Railboad is nearly closed, \$500,000 only remaining, which we offer at 90 and accrued in-terest in Currency, yielding over nine per cent on the investment. The Road is about completed, and the net carnings more than three times the interest on these Bonds. We considently recommend them to investors.

## GOLD BONDS,

First Mortgage on its Extension. The line of this Road, including the Extension, is 420 miles, and COMPLETED, except the short distance of eight-five miles between Havana, on the Illinois River, and the Mississippi.

A part of the line (2021 miles), from Indianapolis to Pekin, has been

in successful operation over two years, and is RECOGNIZED AS ONE OF THE MOST IMPORTANT ROADS COMING INTO THE CITY OF INDIANAPOLIS. Its not earnings are more than sufficient to pay interest on ALL Bends issued by the Company, ANDITS RECEIPTS FOR 1972 WERE MORE THAN \$395,000 GREATER THAN IN THE PREVIOUS YEAR. These Bends possess unusual strength, and we recommend them for

1. The Road is already earning more than operat-

ing expenses and interest.

2. The unfinished portion of the line will be completed within a few months, and the entire road has an immense business immediately tributary to it. EARNINGS FOR LAST THREE MONTHS OF 1872

WERE AT THE RATE OF \$7.227 FER MILE per annum, and must reach \$10,000 per mile within two years, and continue progressive.

3. The effect of such revenue upon the market value of the enpital stock of the road, as well as upon its

convertible bonds, is obvious. 4. The SECURITY IS COMPLETE. 5. The management of the road is acknowledged to be SUPERIOR, and there can be no possibility of any

default in interest payments.
